I urge the FCC to reject the NAB's petition 04-160, and to support XM's ability to provide the kind of quality, varied programming that I as a listener and American, demand and deserve.

I listen and pay for XM radio and I should be allowed to listen to anything I want without the FCC's approval! Force the NAB to compete in a free market society which will only force them to improve.

Does anyone remember the First Amendment to the Constitution?

With all due respect,
